## *Plastic Fabrication and Design*

Plas-Tech Incorporated is a custom plastic fabrication and distribution company servicing valued customers throughout Canada and the United States. Since operations began in 1987, Plas-Tech has steadily grown in both size and capability. With the addition of a versatile design assistance team and continued investment into cutting edge machinery, the ability to manufacture parts to specification, on-time and within budget has become a standard at Plas-Tech.

We specialize in complete plastic product manufacturing and can accommodate you with prototypes, small runs, large runs, component supply and with finished product assembly. We pride ourselves in our ability to help companies bring quality, cost saving parts to life as part of their final assembly by recommending the right raw materials and manufacturing process for the project. With over twenty years of experience in plastic fabrication and distribution, we can promise that your trust in our ability to service you will be a call worth making. Put simply: we encourage you to THINK plastics and to USE Plas-Tech.

# THINK PLASTICS FOR YOUR INDUSTRY
